Tarantulas

1 Tarantulas are large, hairy spiders. Most are black or brown. Some have been known to live for 30 years!

2 Did you know that the largest tarantulas are longer than a ruler? They have a tiny claw on the end of each of their eight hairy legs. These help them to climb.

3 Some live in burrows under the ground. Others live on the ground under rocks, bark or logs. Some even live in trees.

4 Tarantulas are meat eaters. They like to eat insects, other spiders and small lizards. Larger tarantulas also eat frogs, snakes and small birds.

5 They kill their prey with a poisonous bite. Then they crush them with their strong jaws. Most tarantulas don't wait in their web to catch their prey. They run after them and catch them!

6 A tarantula's bite is like a bee or wasp sting to a human being. It is good to know that if one bit a person, he or she would not die!

1. The word ***poisonous*** in Paragraph 5 means:

- (a) *deadly.*
- (b) *tasty.*
- (c) *strong.*

2. What helps tarantulas to climb?

- (a) *long legs*
- (b) *tiny claws*
- (c) *strong jaws*

3. Paragraph 5 is mainly about:

- (a) *how tarantulas catch food.*
- (b) *how tarantulas eat food.*
- (c) *how tarantulas scare people.*

4. What would happen if a tarantula bit you?
You would:

- (a) *not feel it.*
- (b) *die.*
- (c) *live.*

5. Which answer is true? Tarantulas eat:

- (a) *weeds.*
- (b) *plants.*
- (c) *grasshoppers.*

6. In Paragraph 5, the word ***them*** means:
