

Name _____

Date _____

Tuesday

Fractions - Halves and Quarters (A)

① Halves

a) Represent the shaded part.

b) Shade the shape to match the fraction.

c) Circle one-half of the group.

d) Use less than (<) or greater than (>) to make these number sentences true.

② Quarters

a) Represent the shaded part.

b) Shade the shape to match the fraction.

c) Circle one-quarter of the group.

d) Use less than (<) or greater than (>) to make these sentences true.

Linking Addition and Subtraction

Addition and subtraction are 'inverse operations'. For every addition number sentence, there is a related subtraction number sentence.

Addition

$$\boxed{20} + \textcircled{30} = \text{hexagon } 50$$

$$\textcircled{30} + \boxed{20} = \text{hexagon } 50$$

Subtraction

$$\text{hexagon } 50 - \textcircled{30} = \boxed{20}$$

$$\text{hexagon } 50 - \boxed{20} = \textcircled{30}$$

1. Find the addition and subtraction fact families for each group of numbers.

a)

$$\boxed{18} + \boxed{23} = \boxed{41}$$

$$\textcircled{18} \quad \textcircled{23} \quad \boxed{} + \boxed{} = \boxed{}$$

$$\textcircled{41} \quad \boxed{} - \boxed{} = \boxed{}$$

$$\boxed{} - \boxed{} = \boxed{}$$

b)

$$\boxed{} + \boxed{} = \boxed{}$$

$$\textcircled{68} \quad \textcircled{45} \quad \boxed{} + \boxed{} = \boxed{}$$

$$\textcircled{23} \quad \boxed{} - \boxed{} = \boxed{}$$

$$\boxed{} - \boxed{} = \boxed{}$$

2. Choose another three numbers to create your own fact family.

3. Explain the link between addition and subtraction.

wednesday

Fraction Flags

- ① Colour each flag according to the instructions so that the whole flag is coloured.

one half red, one half blue

one third purple, one third orange,
one third green

one quarter white, one quarter
black, one quarter pink, one
quarter yellow

one fifth blue, one fifth pink, one
fifth grey, one fifth red, one fifth
green

- ② Draw lines to help you colour the flags according to the instructions.

one half brown, one half green

two quarters blue, one quarter
yellow, one quarter red

Name _____

Date _____

Thursday

Counting by Fractions

- ① This kangaroo jumps in halves. Show where the kangaroo lands each time.

- ② This kangaroo jumps in quarters. Show where the kangaroo lands each time.

- ③ This kangaroo jumps in thirds. Show where the kangaroo lands each time.

- ④ This kangaroo jumps in sixths. Show where the kangaroo lands each time.

Name _____

Date _____

Thursday

- ⑤ This kangaroo jumps from 0 to $1\frac{1}{2}$. It continues this pattern. Show where the kangaroo lands each time.

- ⑥ This kangaroo jumps from 0 to $1\frac{1}{4}$. It continues this pattern. Show where the kangaroo lands each time.

- ⑦ Add in the missing fractions to complete these number lines.

Name _____

Date _____

Friday

Fractions - Thirds and Fifths (A)

① Thirds

a) Represent the shaded part.

b) Shade the shape to match the fraction.

c) Circle one-third of the group.

d) Use less than (<) or greater than (>) to make these sentences true.

② Fifths

a) Represent the shaded part.

b) Shade the shape to match the fraction.

c) Circle one-fifth of the group.

d) Use less than (<) or greater than (>) to make these sentences true.

Name _____

Date _____

Friday

Fractions - Thirds and Fifths (B)

① Thirds

a) Represent the shaded part.

b) Shade the shape to match the fraction.

c) Circle one-third of the group.

d) Use less than (<) or greater than (>) to make these sentences true.

② Fifths

a) Represent the shaded part.

b) Shade the shape to match the fraction.

c) Circle one-fifth of the group.

d) Use less than (<) or greater than (>) to make these sentences true.
